STEM Century “It Takes a Village to Raise a 21st Century Graduate: Suffolk, VA Edition” Book Launch

In partnership with the Old Dominion University Virginia Modeling, Analysis and Simulation Center (VMASC), Suffolk Public Schools is excited announce our upcoming STEM Immersive Open House/STEM Century "It Takes a Village to Raise a 21st Century Graduate: Suffolk, VA Edition" Book Launch event on **Monday, July 31 at 6 p.m.**

At this event, you can purchase copies of STEM Century "It Takes a Village to Raise a 21st

Century Graduate: Suffolk, VA Edition", where community members, parents, staff, and a few Suffolk Public Schools students share their thoughts and perspectives on advancing our educational system's goals in fostering, improving, and invigorating student engagement in the 21st-century workforce. Authors from each chapter of the book will be present for a book signing. You will also have the opportunity to experience digital innovation tools and technologies at one of the world's leading computer modeling and simulation research centers.

The digital version of the book "It Takes a Village to Raise a 21st Century Graduate: Suffolk, VA Edition" will launch at 8:00 a.m. on Monday, July 31, on Amazon. This book will be the 3rd edition of the STEM series and the first that is written by a school division.

For more information, contact the Anthonette Dickens, Communications and Community Engagement Officer for Suffolk Public Schools, at 757-923-5244.

About Suffolk Public Schools

Suffolk Public Schools is a public school division located in Suffolk, Virginia. The school division has 21 learning facilities with a student population of over 14,000 students.

About 21stCentEd

21stCentEd has a wide variety of Client Partners. Using solutions from their 21st Century Education Toolkit, they are able to fill the needs of school districts with thousands of students as well as parents looking to take their Homeschooling experience to another level.

With built-in lesson plans and curriculum, it's easy for teachers, parents, mentors and coaches to guide students through the lessons, even if they are not STEM experts.

About VMASC

The Virginia Modeling, Analysis, and Simulation Center, is a multidisciplinary applied research and enterprise research facility of Old Dominion University, located in the Tri-Cities Center in Suffolk, Virginia.
