

## STEM Night @ The Shore Tuesday, April 23, 2024 6:30 p.m. to 7:30 p.m.

STEM literacy is the ability to identify and acknowledge science, technology, engineering, and mathematics concepts and processes in everyday life! Please join the staff of Kilby Shores Elementary School for a fun-filled evening of STEM Activities. Families will come out and make connections to various STEM Activities related to Science SOLs. Don't miss out on this family event! We will also give away several door prizes provided by our Partners in Education, but you must be present to win! Please RSVP by Tuesday, April 16, 2024 to ensure we have enough supplies for our activities.

Cut Here and Return Bottom Portion to Teacher

Yes, I will be able to attend STEM Night on Tuesday, April 23, 2024.

No, I will not be able to attend STEM Night on Tuesday, April 23, 2024.
