December 12, 2022

To All Interested Parties:

**Subject: Request for Proposal – Fiber Installations and Maintenance**

**QUESTION:** Do you have an estimate of how much fiber is linking the network?

**ANSWER:** We have somewhere between 20 & 25 miles of fiber

**QUESTION:** Are you able to share redlines of the fiber infrastructure to better understand the scope of work?

**AWARD:** We can with the awarded contractor.

**QUESTION:** Also, are there any immediate plans to expand installation or is this mainly a maintenance contract for the foreseeable future?

**ANSWER:** Yes, but it will be determined on funding. We also reserve the right to bid these additions separately

**QUESTION:** Will there be an option to bid on just the fiber restoration/installation splicing segment?

**ANSWER:** You may bid on part or the entirety of the specified request. However, we reserve the right to award higher points to those that can perform the entire scope.

**QUESTION:** I did not see a pre-bid meeting, is there one scheduled? If so can you please provide time and location?

**ANSWER:** There is no pre-bid scheduled.

**DUE DATE CHANGE:**

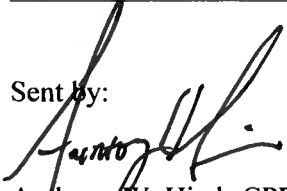

**We are amending the due date of this procurement to January 17, 2023 on or before 2:00 PM to allow for proposers to have ample time to produce a proposal. This is factoring in the holiday closings.**

If the proposal is complete or has been mailed prior to this addendum, the proposer may sign this addendum at a later date or acknowledge at the time of contract award.

Addendum 1 Acknowledged:
